

## **Carboneg – an ambitious climate project for Central Asia**

**Organizer:** Climate Finance Center under the Ministry of Natural Resources, Ecology and Technical Supervision of the Kyrgyz Republic (CFC)

**Date:** 5 December, 2023

**Time:** 11.15-12.45 (UAE, GMC+4)

**Location:** Central Asian pavilion, Blue Zone, B2, Pavilion 15

EcoAgro and Victorious Group are companies that implement innovative approaches in agricultural sector of Central Asia since 2010. These technologies permit to reduce up to 95% of methane emissions in livestock and creates organic fertilizer to improve agriculture. New technologies in agriculture increases soil fertility, which helps retain carbon in the soil, rise the yield and decrease biodegradability.

Carboneg is a soil carbon sequestration project by promoting regenerative farming principles. The main goal is to make soil healthy again. It reduces costs and GHG emissions by up to 80%, increases profitability by 25% and significantly improves soil resilience to drought and heavy rainfall.

Carboneg project is very cost-effective. The main costs are training and ongoing support and monitoring. It operates in 10 countries on 4 continents on more than 200,000 hectares. They want to act and bring change to millions of hectares. They are ready to scale up very quickly for as little as USD 5/ha.

This is an ongoing project in Kyrgyzstan that is beginning its work also in Kazakhstan and plans to scale up to other Central Asian countries.

### **The objective of the event:**

The main objective of the event is to attract the attention of MDBs, international development partners and climate funds to the very cost-effective project that has very high ambitions.

## AGENDA

### Carboneg – an ambitious climate project for Central Asia

**Date:** 5 December, 2023

**Time:** 11.15-12.45 (UAE, GMC+4)

**Location:** Central Asian pavilion, Blue Zone, B2, Pavilion 15

**Moderator:** Mr. A. TEMIRKULOV, Director of the Climate Finance Center under the Minister of the natural resources, ecology and technical supervision of the Kyrgyz Republic

Time (UAE)	Activity
11:15-11:20	<b>Registration</b>
11:20-11:30	<b>Welcome speech:</b> Mr. M. TURGUNBAEV, Minister of the natural resources, ecology and technical supervision of the Kyrgyz Republic
11:30-11:35	<b>Short video:</b> The impact of agricultural waste on climate and solutions, Ecoagro and Victorious Group
11:35-11:50	Mr. N. KADYRKULOV, General director Ecoagro and Victorious Group (online)
11:50-12:05	<b>Questions and Answers</b>
12:05-12:10	<b>Short video:</b> Carboneg - carbon neutrality and healthy soil
12:10-12:25	Mr. V. KUREL, General director of Carboneg project
12:25-12:40	<b>Questions and Answers</b>
12:40-12:45	<b>Closing remarks</b>
